Data Systems & Workflow: Git/GitHub, Reproducible Research Workflows, Qualtrics, Linux, MAXQDA

Software & Tools: Quorum, Rev transcription, Otter AI, MailChimp, Descript, Microsoft Office Suite, Google Workspace

RELEVANT ACADEMIC EXPERIENCE

- Developed an [interactive dashboard](#) in R/RStudio using Flexdashboard, Leaflet, HTML/CSS, and GitHub Pages to disseminate thesis findings and interactive visualizations of food insecurity and local food systems.
- Designed and presented two quantitative research projects using SAS and Python concerning [long-COVID](#) (complex survey analysis) and [food insecurity](#) (statistical modeling).
- Executed a mixed-methods [program evaluation](#) for the Atlanta Beltline Partnership's Legacy Residential Retention Program (LRRP) using survey data collection, canvassing, and thematic analysis of focus group findings.
- Designed a [public health program](#) bringing mobile maternal care to a maternal care desert.
- Conducted a [qualitative study](#) of community food and food insecurity in Metro Atlanta using in-depth interviews and thematic analysis.
- Constructed a [conceptual model](#) using constructs from public health theories/frameworks across levels of the Social Ecological Model concerning access to doula care.

RELEVANT WORK EXPERIENCE

Contract Research Analyst, Rachel Cahill Consulting, Atlanta, GA

Jan 2023-Present

- Lead data engagement for 3 clients from intake to delivery to inform state-level policy and administrative priorities: scope needs, manage timelines, liaise with stakeholders, and produce decision-ready data insights
- Coordinate the collection, cleaning, validation, and organization of raw data; document processes, assumptions, and issues to maintain quality, transparency, and repeatability; provide ongoing data stewardship
- Deliver findings via written and audio-visual materials, including quarterly KPI dashboards, 18 state case studies, 5 trainings, [blog posts](#), and social media content; present findings to stakeholders and community members
- Manage 3 mixed-methods program evaluations of state-level program implementation, administration, and participant efficacy for SNAP, [SNAP E&T](#), and [Summer EBT](#); translate results into recommendations

Emerson National Hunger Fellow**Aug 2021-Aug 2022***Maryland Hunger Solutions*, Baltimore, MD & *Alliance to End Hunger*, Washington, DC

- Designed a qualitative study of organizational racial equity policies to evaluate successes and possible improvements to the national anti-hunger movement
- Conducted survey data collection, interviews, literature reviews, and thematic analysis to locate best practices, and disseminated recommendations via 2 webinars, 2 blog posts, and 2 Capitol Hill visits
- Supported grassroots coalition building by serving as a Panelist on the Food Research and Action Center (FRAC) Social Equity Fund.
- Advanced “Hunger is a Racial Equity Issue” communications advocacy campaign with 1 background paper, 2 workshops, 2 blog posts, and 1 training guide
- Lead 3 virtual trainings to distribute racial equity resources to over 100 food advocates
- Provided technical assistance to two anti-hunger organizations to advance internal racial equity initiatives

Research Assistant, *Childhood Obesity Prevention Laboratory*, *University of Georgia*, Athens, GA**Feb 2021-Aug 2021**

- Coordinated recruitment and survey data collection for 3 healthy eating message testing campaigns
- Translated public health research into training material, infographics, and social media content
- Liaised to over 50 community partners, early care and education providers, and parents
- Managed administrative operations like reimbursements, note-taking, and monitoring lab email accounts

Purchasing, Planning, and Master Data Specialist, *The Art of Shaving*, Miami, FL**Oct 2018-Sep 2020**

- Lead the reconciliation of 3 CRM databases into one system of record within a three-month period
- Delivered monthly presentations with purchasing data visualized into graphs and tables to inform procurement
- Managed the daily flow of data, goods, and communication between 70 domestic and international vendors, 7 contract manufacturers, 5 warehouse sites, transportation logistics teams, and internal departments
- Researched, managed, analyzed, and distributed purchasing, planning, and inventory data for over 1,000 items

SERVICE & LEADERSHIP**Member**, *Greene Cloth Collective*, Atlanta Metropolitan Area, GA**June 2020-Present****Agrarian Bond**, *Sunbird Flowers Farm*, *Community Movement Builders*, *Gratitude Botanical Farm*, *Small Farmz*, *Truly Living Well*

- Established a farmer solidarity network between growers and cultural workers on Sapelo Island and in the Atlanta Metro Area in support of them building their capacity, pushing through difficult seasons, and developing imaginative ways of working the land through their collaboration with each other.

Volunteer Days, *Thomasville Heights Elementary School Farm for Service*

- Supported the school’s efforts in addressing food insecurity through urban farming, community outreach, and healthy eating education by maintaining the on-site organic farm while students attended school virtually.

Last Days of Summer, *Save Our Legacy Ourself (SOLO)*

- Organized a series of excursions to the coastal saltwater Geechee land of Sapelo Island for Black farmers to engage in mutual aid work and cultural exchange with the community of the historic Hog Hammock community.

Volunteer Dayz on Small Farmz

- Coordinated a series of volunteer days hosted by farmer Maurice Smalls. In exchange for labor, volunteers gain knowledge on composting, hügelkultur, and other growing techniques.

Southeastern African American Farmers’ Organic Network (SAAFON)

- Participated in the Georgia Farmers Brigade in support of Black farmers seeking volunteers for large infrastructural projects.
